

CUSTOM STEEL BUILDINGS

# COMMUNITY+GOVERNMENT

## OUR FOCUS<sup>®</sup>

Kirby is a leading manufacturer of custom engineered, high quality and cost effective custom-engineered metal building systems. With a tradition of excellence and industry experience dating back over six decades, our quality products include complete framing systems, wall, and roof panel systems, and extended bay options – all engineered and manufactured by Kirby teammates. We are dedicated to serving our customers and demonstrate that dedication by following the Kirby FOCUS.

This FOCUS was developed as a way to distinguish ourselves from the rest of the pack. The market is crowded with metal building companies that claim to have the best products, the best prices, or the best customer service, but who tend to fall woefully short of actually fulfilling those promises. We take our FOCUS to heart, and it shows in everything we do.

**F**IT (“Steel that fits...”)

**O**N TIME

**C**OMPETITIVE PRICING

**U**NBEATABLE SERVICE

**S**OLUTIONS THAT WORK

# COMMUNITY+GOVERNMENT

Kirby Building Systems brings flexibility and economy to the design and construction of community and government facilities — spaces that share a common purpose of serving public needs. From public works and utility buildings, maintenance garages and fire stations, to community centers, museums, and local recreation spaces, we offer a full flexible product line that is custom designed to meet each client's unique needs. Kirby buildings are the perfect cost effective solution for multi-use spaces, incorporating areas for administration, training, housing and recreation, maintenance, and storage all under one roof.

## **FAST, COST-EFFECTIVE CONSTRUCTION**

Our goal is to provide the customized solution you're looking for, while minimizing the total cost of your investment. Our leading-edge engineering capabilities provide efficient designs and our smart easy-to-construct building systems provide a fast and economical way to build your next project.

## **SUPERIOR PRODUCT**

As a member of the Metal Building Manufacturers Association (MBMA), we'll provide the product, service, and value-added benefits required to ensure your project exceeds your expectations.

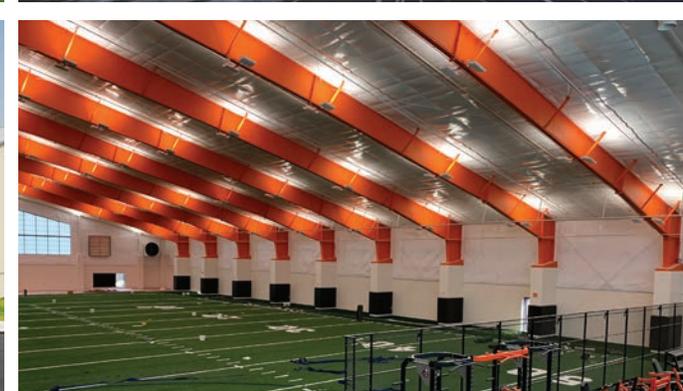

## **REDUCED CONSTRUCTION TIME & MAINTENANCE**

Our building systems offer the fastest, most economical way to build without compromising quality. Kirby brings flexibility, as well as efficiency, to the design and construction of your facility.

## **PERSONALIZED SERVICE**

Kirby backs up our product with outstanding, hands-on service. As part of our culture, Kirby teammates are constantly challenged to find innovative ways to solve problems and to be more productive.
