Burnips Equipment is a full service farm implement, garden and supply company that services and repairs all types farm equipment. Their new 45,000 square foot state of the art facility is located at 3073 142nd Ave Dorr, MI just east of their former location.

Some key features of this facility include a 24 Ga KirbyLoc Mechanically Seamed roof, 26 Ga KRP (reverse roll) wall panel, custom internal valley gutters, custom entrance canopy, several large overhead doors, 5 ton Star overhead cranes, internal custom fire suppression system and a large 30' x 120' 2nd floor mezzanine area.

Kirby Authorized Builder, Miedema Metal Building Systems has been in business for 44 years providing the West Michigan business community with pre-engineered metal building sales and service. This new facility has enabled Burnips Equipment to expand its hardware and farm supply section along with tools, livestock and 4-H supplies.
