Ganesh Mills is the home of the Oxford Super Blend, a cotton blend that has made them a part of the heritage of the American hospitality industry. As one of the largest privately held terry brands in the United States, Ganesh Mills has grown consistently over the last twenty-nine years since their start in 1989 and has become one of the leaders in the textile industry.

This new building, the Ganesh Holdings North, LLC, encompasses over 165,000 sf of combined office and warehouse space. In this state of the art distribution and fulfillment center, over forty million textile items are moved annually through their extensive network to distributors. These distributors then sell to hotels, motels, resorts, theme parks, vacation homes, sports clubs, salons, spas, hospitals, and cruise lines. Their product assortment includes bedding, linens, towels, robes, bath mats, and an expansive range of in-room products that carry the Oxford Super Blend and the Ganesh Mills name.

Their building was designed using a custom Kirby pre-engineered building and features a Kirby-LOK roof system.
