

# Kalamazoo Gospel Mission

## LOCATION

Kalamazoo, MI

## SIZE

15,527 sf

## ROOF SYSTEM

KirbyLOK Mechanical

Kalamazoo Gospel Mission is dedicated to helping those with day-to-day challenges of the homeless, addicted, and hurting in the community. This project is a combination of an existing Kirby building with a two part building addition.

Kirby Building Systems provided clips to connect the existing purlins with new purlins and the new portion had to be completed bearing on the existing wall. Kirby also provided complete liner for walls and ceilings.
