KirbyLOK 24 GA Zinc Aluminum

Appleton International Airport (formerly Outagamie County Regional Airport) is an airport located in Outagamie County, Wisconsin, just west of Appleton. It is the fourth-busiest commercial airport in Wisconsin in terms of passengers served and is the main base of privately owned regional airline Air Wisconsin.

In order to support their business needs, Kimberly Clark recently completed a new 23,000 sf private hangar facility which is located just north of the main terminal at the Appleton International Airport.
