

CUSTOM STEEL BUILDINGS

# COMMERCIAL

# COMMERCIAL

Kirby Building Systems brings flexibility, as well as economy, to the design and construction of your commercial building. We're proud of our reputation for designing quality into every product, and we would like to share our success with you. From modest retail outlets to large shopping centers, restaurants, or large automotive dealerships, Kirby can provide you with exceptional service, design, economy, safety, and versatility.

## Fast, Cost-Effective Construction

Our goal is to provide the customized solution you're looking for, while minimizing the total cost of your investment. Our leading-edge engineering capabilities provide efficient designs, and our smart, easy-to-construct building systems provide a fast and economical way to build your next project.

## Superior Product

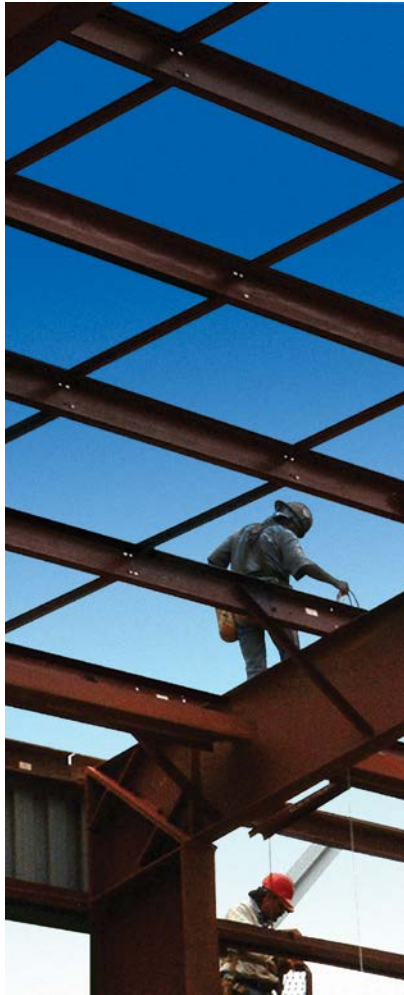

As a member of the Metal Building Manufacturers Association (MBMA), we'll provide the product, service, and value-added benefits required to ensure your project exceeds your expectations.

## Reduced Construction Time & Maintenance

Kirby's building systems offer the fastest, most economical way to build without compromising quality.

## Personalized Service

Kirby teammates back up our product with outstanding, hands-on service.
