

Belclare Batting Cages

LOCATION

Cincinnati, OH

SIZE

7,880 sf

WALL SYSTEM

Kirby Reversed Roll

ROOF SYSTEM

Kirby-Lok

The Belclare Batting Cages project is used as a recreational facility. It was designed using a custom Kirby pre-engineered building at 80' x 98'-6" with a single slope building with a skewed wall in the back right corner. There is a full basement in this building so all columns set on top of a poured concrete wall. The building was designed to support suspended batting cages.
