

Project Spotlight

NOVEMBER 2020

Canfield Fair - Junior Fair Coliseum **Builder: J. Herbert Construction**

Located in Canfield, Ohio and now the home of the Junior Fair at the Canfield Fair, one of the largest county fairs in the country. This project, a 35,000 square foot agricultural facility, was years in the making and has several more phases planned, including an additional 35,000 square feet of metal building. The facility, which opened just in time to host this year's Junior Fair, is also intended to be used as an expo center for the greater Youngstown, Ohio area.

The facility features a 150' x 150' main building and a lean-to on each side, both 40' x 150'. The building utilizes the Kirby SS360 Standing Seam roof system and KirbyWall panels.
