

## Project Spotlight

FEBRUARY 2021

### Generation Church

**Builder: Design Construction & Door Services, Inc.**

Located in Kirby's hometown of Portland, Tennessee, this new community facility serves as the multigenerational church headquarters for Generation Church. Generation Church was founded in 2012 by Brandon Petty, the lead pastor. The 13,000 square-foot facility includes a 73' x 115' single slope building for the main structure and a 20' x 97' lean-to serves as the entrance. The roof utilizes a Kirby standing seam system and the walls are insulated metal panels. The project includes a Kirby supplied mezzanine and the entrance building features storefront glass systems. The building was designed for future additions at each end of the facility with phase 2 beginning this month.
