

Chicago Drive Ventures #1 Warehousing

LOCATION

Hudsonville, MI

SIZE

29,815 sf

ROOF SYSTEM

SS360 Standing Seam
Galvalume

BUILDING END-USE

Warehousing

Located in Hudsonville, Michigan, this custom pre-engineered industrial facility utilizes our single slope framing system and SS360 standing seam roof system. The attractive exterior for the 29,815 sf warehousing and manufacturing center is accomplished using 3" insulated wall panels. Framed openings for the five overhead doors were prepped with 4" masonry, adding to the design of this clear span project.
