Nucor Steel Store: Standing By For Your Component Orders

Nucor Steel Store makes ordering components quick and easy, with fast delivery direct to your job site. As the nation's most diversified producer of steel and steel products, Nucor has a broad assortment of custom fabricated products available. You can launch Nucor Steel Store from the Builder Dashboard, from inside eQuote, or by simply typing in "nucorsteelstore.com" in your browser.

METAL BUILDINGS » ASSEMBLY KITS » ROOF LINE TRIMS » STANDING SEAM ACCESSORIES

The Landing Page has some highlighted categories that help you quickly dive into the product, even without logging in, by simply clicking on a category and navigating subcategories and then parts. As you navigate, the catalog along the left side shows where you are in the tree. Of course, you'll want to use the "Log In" option in the upper right and then create an order to be able to see pricing that is relevant for the brand and supplying plant. You can use the same credentials as eQuote and Builder Dashboard.

The "Search" feature in the upper left allows you to quickly find parts. If you know the exact part name that you are looking for, you can simply type it here and hit "Enter" or click the magnifying glass to go directly to that part. If you use a search term, Steel Store will load up the search results and, if more than one page, will display page navigation tools at the bottom. The search results also may show a "bread crumb" that you can navigate by clicking on any level.

Most parts have a picture and perhaps a .pdf with some additional information just a click away. You can specify a quantity and color as well as other properties where applicable.

TURNBUCKLE FOR 5/8" ROD

H0710

Notes: Related Parts: Coupling Nuts, Brace Clevis, Hillside Washers, Floor Brace Clevis T-Clip, Bolt, Nut, Washer.

Lead Time: Standard

QUANTITY	PART NAME	COLOR
<input type="text" value="1"/>	<input type="text" value="H0710"/>	<input type="text" value="GZ - Galvanized"/>

[ADD TO CART](#)

In the upper right, the “Cart” is always visible and displays the number of items in the cart. It can be expanded and hidden simply by clicking on it. The Project Name and Username are also displayed in this area. Clicking on the Username will take you to the “Orders” page where you can see all of your past and present order, similar to the “Project Manager” screen in eQuote.

When you are ready to order, you can hit the “Checkout” button on the Cart and look for the “Place Order” button on the “Orders” screen.

Order Custom Steel Products – Anytime, Anywhere

We’re open 24/7! The Nucor Steel Store is designed for use on all devices, so making an order is fast and easy whether you’re in your office, on the go, or at the job site.

Shipped on Schedule – Directly to Your Jobsite

Our production teams are capable of meeting tight delivery schedules, and with plants and service centers strategically located across North America, we offer local service to your job site, providing for reduced shipping time and freight costs.

Questions?

If you have questions or are ready to get started, please call a division near you, or fill out the contact form to have a component tech reach out to you. Thanks for stopping by NucorSteelStore.com today!
