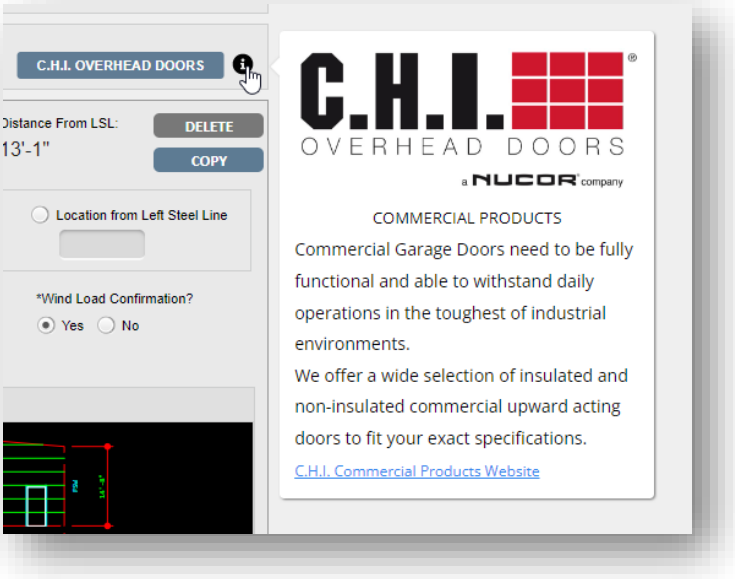
December 2022

NBG Welcomes C.H.I. Overhead Doors

Nucor Buildings Group is pleased to welcome C.H.I. Overhead Doors to the Nucor family. C.H.I. Overhead Doors is a leading manufacturer of overhead door products for residential and commercial applications, as well as rolling steel and rubber doors for commercial and industrial customers. The company has approximately 800 teammates across two manufacturing plants in Arthur, Illinois, and Terre Haute, Indiana, and regional warehouses located in California, Colorado, New Hampshire and New Jersey.

We are excited to connect our Authorized Builders with C.H.I. Overhead Doors commercial product line and their nationwide network of installers within eQuote.

On the Framed Opening screen in eQuote, there is a new button to easily navigate to a page specifically designed for NBG Builders. The C.H.I. installer in your market will reach out to provide a quote for your project. *(Shown to the right)*



C.H.I. Overhead Door Commercial Products

Commercial Garage Doors need to be functional and able to withstand daily operations in the toughest industrial environments. C.H.I. offers a wide selection of insulated and non-insulated commercial upward acting doors to fit your exact specifications. Learn more about our products by visiting https://www.chiohd.com/commercial/commercial-garage-doors or downloading the brochures below.
