Thayer Sports Center

Builder: D.R. Poulin Construction Co. Inc.

Authorized Builder D.R. Poulin Construction Co. Inc. specializes in design-build construction projects throughout Massachusetts.

D.R. Poulin Construction completed this 83,160 square-foot multi-use recreational center. The structure includes one and a half ice surfaces with a bleacher system, an indoor field house with a multi-sport playing surface, a center core with a concession stand and locker rooms, and a second floor private function center, including a fitness center and offices.

The facility features Kirby's KirbyLok Mechanical Roof System in galvalume, and the DM40 Insulated Metal Panel Wall System. Kirby provided clear span designs of 140' for the indoor fieldhouse and 115' for the ice rink section.
