

# Infinity Volleyball Academy

## LOCATION

Brandon, MS

## SIZE

40,000 sf

## WALL SYSTEM

Reverse R-Panel/Brick/EIFS

## ROOF SYSTEM

Standing Seam 360  
Dark Bronze

## BUILDING END-USE

Volleyball Academy

An indoor training facility equipped with eight full courts, seating, and concessions was designed for Infinity Volleyball Academy. The project combined the use of multiple veneers, a partial parapet, and integral structural steel framing to support the massive sign structure at the entrance. The exterior utilizes Kirby's Standing Seam 360 roof panels and a combination of Kirby's Reverse R-Panel, brick, and EIFS.
