Kirby Receives MBMA Safety Award

The Metal Building Manufacturers Association (MBMA) recognized their 2022 safety award winners at the 2023 MBMA Spring Meeting held in May in Nashville, Tennessee. The awards honor building systems members and associate members that demonstrate exceptional performance in workplace safety for their performance during the previous calendar year.

Kirby was recognized with the 2022 Safety Performance Award, which recognizes MBMA members' manufacturing facilities having achieved an incident rate equal to 50 percent or less than the industry average as reported by OSHA.

Shown receiving the award is Kirby welder David Lane.
