

Springside Dairy

LOCATION

Carlyle, IL

SIZE

7,500 sf

WALL SYSTEM

R-Panel
Brick Red

ROOF SYSTEM

R-Panel
Burnished Slate

BUILDING END-USE

Dairy Barn

Springside Dairy utilized a mixture of design elements to achieve an old barn look. Brick red R-Panel walls line the exterior, mimicking the barn inspiration, and the building is enclosed using an R-Panel roof system in burnished slate. Five wall-framed openings unify the design to hold vertical lift doors varying in size. Two-foot eave extensions line the building sides, and a 40-stall internal rotary-style milking parlor is featured.
