Galvalume

BUILDING END-USE

Manufacturing & Distribution

This structure features multiple pre-engineered metal buildings providing space for office and retail, two warehouses, and an approximately 169' x 83' storage area, totaling 45,000 square feet. Kirby supplied a below-eave canopy on the secondary warehouse. An innovative solution for this project included a unique and custom design for an explosion control room and venting procedures. The common wall between the office and the main warehouse has a 12" firewall. The interior features racking, testing labs, mixing rooms, and showrooms.

FinishWorks is a leading manufacturer and distributor of industrial wood and metal coatings. They are a recognized leader in supplying tailored coating solutions, combining trend-setting finish design with outstanding color consistency. FinishWorks has ten locations and is continuously growing and expanding.
