

# TradePort Logistics

## LOCATION

Pooler, GA

## SIZE

115,500 sf

## ROOF SYSTEM

Standing Seam 360  
Galvalume Plus

## BUILDING END-USE

Distribution/Warehousing

Two gable framing structures, one symmetrical and one asymmetrical, create 115,500 sf of space for this cross-docking facility for distribution and warehousing. 120 dock doors are featured along with a connected trailer yard, leaving TradePort Logistics with over 700 trailer spaces. An office and break area occupy 4,200 sf of space. The exterior utilizes full-height concrete tilt-wall panels and Kirby's Standing Seam 360 roof system.
