Galvalume

## BUILDING END-USE

Distribution/Warehousing

The Food Bank of Northeast Georgia, located in Athens, GA, serves as a vital warehouse, distribution center, and office hub for the region's food bank network. This facility utilizes a gable symmetrical system, with R-Panel walls in Regal White and a Standing Seam 360 roof in Galvalume. The nearly 63,000 sf custom metal building includes approximately 31,000 sf of warehouse space dedicated to food storage, a 10,000 sf cooler/freezer, and a variety of office spaces, conference rooms, and a food distribution area. Designed to support the Northeast region's operational needs, this building stands as the primary base of operations for the food bank's outreach and logistics efforts.
